Headquarters Health and Safety: Your Safety and Health Management System

A **SHMS** is a part of an organization's overall management system used to develop and implement safety and health policy and manage its safety and health risks. EPA Headquarters has committed to implementing a SHMS to engage leadership and staff to continually improve safety and health in workspaces and operations. Read the [SHMS Policy Statement](#) (1 pg, 365 K, [About PDF](#)) and the [EPA's Commitment to Safety and Health](#) (1 pg, 193 K, [About PDF](#)) to learn more.
